About Me

For me, coding has never been just a job, from the moment i logged a 'Hello World' in the console of my first application, I knew that I was hooked into the world of programming. And what started with a simple 'Hello World' has become a full-fledged passion that only gets more exciting as the time goes by.

Below you will find projects I have completed that showcase my skills and general background in developing web application

Education

FullStack MERN Web Developer
05/2021 On going

Bootcamp Javascript GoMyCode

Engineer's degree, Mechanical Engineering
10/2016 to 05/2019

National Engineering School of Monastir ,Monastir, Tunisia

Scientific Preparatory Cycle in Mathematics & Physics
10/2014 to 05/ 2016

Preparatory Institute for Engineering Studies of Nabeul
Nabeul, Tunisia

TECHNICAL SKILLS

Frontend : HTML, CSS, JavaScript, ReactJs, Redux, MaterialUI, Bootstrap

Backend : NodeJs, ExpressJs, REST API, PassportJS, JWT, EJS

DataBase : MongoDB, Mongoose(ORM)

Integration tools : Git

Testing Framework : Jest

SOFT SKILLS

• Ability to work with others as well as individually.

• Problem-solving skills (easily detecting the problem and rapidly analyzing it)

• Adaptability and propensity to learn new coding languages and programs

Projects

My Best Nanny (MERN STACK) *September 2021*
https://github.com/HoussemeddineSalem/Checkpoint-MernAppBabysitter

it allows to search and sort baby sitters in the desired area using google map API,
This app was built by a team of two person using github to merge and synchronize commits
o   Technologies : reactjs, redux, axios, nodejs, jwt, expressjs, mongoDB,   mongoose,

Secrets (Back-end) *August 2021*
https://github.com/HoussemeddineSalem/secrets

Is a postSecret clone, it allows to share secrets anonymously,
o   Technologies : ejs templates, nodejs, expressjs, mongoDB, mongoose, passportjs for local and with google authentication.

BlablaFlix (Front-end) *July 2021*
https://github.com/HoussemeddineSalem/React_Router_CP

is a movie app clone. It allows to search and sort for films by name and/or rating.
It is designed using React Hooks and React Router
o   Technologies : reactjs hooks and router

ToDo Web App (Front-end) *July 2021*
https://github.com/HoussemeddineSalem/React-Redux-CP

is simply an app that add, delete and sort todo items.
o   Technologies : reactjs hooks, redux toolkit

Shopping Cart Web App *June 2021*
is designed in raw Javascript code (no libriaries).
It manipulates DOM elements to output the app onto an HTML canvas element.
